

I am writing concerning the AIR 1 radio broadcast, and how it may be affected by the new LPFM broadcast service. Our family, including our two children ages 10 and 7, listen to AIR 1 every day. Both in the morning and the evening, as they are the only FM radio station that plays positive, non-suggestive music in our local community. We even support AIR 1 financially because of the positive music and message they broadcast in our community. If we were to no longer receive AIR 1's broadcast in our area, it would be a loss to both our family and many others in this local community. Because AIR 1 is one of the only commercial-free radio broadcasts in our area, and plays music by artists that are not played on most mainstream stations, it provides a unique and positive function in serving the public interest. We would ask that you take this into consideration, and prevent the new LPFM broadcast service from interrupting AIR 1's operation. Thank you for your consideration.
